SUBJECT INDEX

Entries with pages in Roman type appear in this volume; *entries with data in Italic type appear in Pediatrics in Review.*

Abdomen, trauma, CT evaluation, 11
Abuse, *see* Child abuse; Sexual abuse
Acetaminophen, poisoning, dosage of acetylcysteine in (letter), 674
Acetylcysteine, acetaminophen poisoning (letter), 674
Acquired immunodeficiency syndrome
  acquired circulating anticoagulants with, 763
  adolescents
    fear of (commentary), *PIR10:163, 88–89*
    sexual activity and, *PIR10:69, 88–89*
  correlation with disease progression, 919
  education in schools (committee statement), 278
  embryopathy, *PIR10:170 (abs), 88–89*
  guidelines for infection control (committee statement), 801
  hemophilia and, 565
  live virus vaccine, 229
  lymphoma of the brain associated with (letter), 678
  pediatric trends in, *PIR10:165, 88–89*
  perinatal HIV (committee statement), 941
  primary lymphoma, central nervous system, 355
  respiratory failure with, 223
  suctioning newborn infants and (letter), 520
  thrombocytopenia and, 905
Activated partial thromboplastin time, coagulation inhibitors, AIDS, 763
Adolescents
  adolescent medicine as a discipline (commentary), 270
  drug abuse, *PIR10:89, 88–89*
  eating disorders, *PIR10:37, 88–89*
  fear of AIDS (commentary), *PIR 10:163, 88–89*
  female, papillomavirus infection, genital tract, 604
  health care delivery to, changes in pediatric education, 469
  health counseling, 481
  mothering abilities, *PIR10:140 (abs), 88–89*
  obese, blood pressure and weight loss, 16
  pregnancy, cytomegalovirus and, *PIR10:106 (abs), 88–89*
  sexual behavior (commentary), *PIR10:67, 88–89*
  pediatrician and, *PIR10:69, 88–89*
Adoption, pediatrician and, *PIR10:155, 88–89*
Adrenocortical defects, neuroblastoma associated with, 790
Aerodigestive tract, foreign bodies, *PIR10:25, 88–89*
Agar, plain, neonatal jaundice and, 631
Aggression, persistence of occurrence of injury, predictions, 707
AIDS-related complex, thrombocytopenia and, 905
Airway, foreign bodies, *PIR10:25, 88–89*
Alcohol, consumption, cholesterol level relations, Muscatine study, 309
Allergic bronchopulmonary aspergillosis, cystic fibrosis with, 835
Allergy, controversial techniques (commentary), 935
American Academy of Pediatrics
  Committee statements
    Committee on Accident and Poison Prevention: Snowmobile statement, 798
    Committee on Community Health Services: Health needs of homeless children, 938
    Committee on Infectious Diseases: Intravenous γ-globulin use in children with Kawasaki disease, 122
    Committee on School Health: Acquired immunodeficiency syndrome education in schools, 278
    Committee on Sports Medicine: Infant exercise programs, 800
    Task Force on Child Abuse and Neglect: Public disclosure of private information about victims of abuse, 387
    Task Force on Pediatric AIDS: Perinatal human immunodeficiency virus infection, 941
    Task Force on Pediatric AIDS: Pediatric guidelines for infection control of human immunodeficiency virus (acquired immunodeficiency virus) in hospitals, medical offices, schools, and other settings, 801
American Board of Pediatrics, candidates certified, 289, 396, 813
Amino acids, premature infants (letter), 680
Anemia, evaluation, *PIR10:77, 88–89*
Anencephaly
  organ donation and, 250, 257
  organs from dying infants (commentary), 274
Aneurysms, peripheral, 786
Anticoagulant, acquired circulating, AIDS with, 763
Anticonvulsants, barbiturate, severe depression and (letter), 284
Antimicrobial therapy, acute pharyngitis, streptococcal antigen detection kit, 576
Aphasia, unclear speech, preschoolers, 447
Apnea
  neonatal, diagnosis, nurse versus computer, 713
  obstructive, polysomnographic studies of infants, 721
Appendectomy, acute, psychologic preparation, 30
Ascites, cytomegalovirus and, fetus, 100
Asphyxia
  brain swelling and, term newborn, 139
  intrapartum, cerebral palsy and, 240
Aspiration, foreign body, coughing and wheezing, *PIR10:59, 88–89*
Aspirin, Reye syndrome and (letter), 135
Asthma
  exercise programs and, *PIR10:191 (abs), 88–89*
  intravenous theophylline dosage, prediction, 880
  parent education (letter), 281
α-Atrial natriuretic peptide, congenital heart diseases and, 639
Attention deficit disorder, medication (letter), 812
Autism, fenfluramine effects, *PIR10:16 (abs), 88–89*
Autosomal dominant disorder, Levy-Hollister syndrome, 96
Autosomal recessive disorder, harlequin fetus, progress to nonbullous ichthyosiform erythroderma, 870

Bacillus cereus, cerebrospinal fluid, patients without shunts, 909
Back transport, neonatal, clinical outcomes, 845
Bacterial infection, ceftriaxone and, 486
Barbiturates, severe depression and (letter), 284
Behavior
  fire-setting, Klinefelter syndrome, 115

obese adolescents, blood pressure and weight loss, 16
preschool problems, risk of injury and, 644
problems, encopresis and, 407
Bilirubin
decreased level, plain agar and, neonates, 631
measurement (letter), 808
serum concentrations, very low birth weight infants, 350
Birth weight
growth and, 828
low
bilirubin, intraventricular hemorrhage, and TrophAmine and (letter), 388
otitis media in neonatal intensive care unit graduates, 44
retinopathy of prematurity, 344
role of illness in family status, 596
socioeconomic status versus race, 896
systemic candidiasis in, 211
variability in 28-day outcome, 554
Bladder, obstruction, vesicoureteral reflux and, primate, 91
Bleeding, acquired circulating anticoagulants, AIDS with, 763
Blindness, retinopathy of prematurity and, 344
Blood flow
cerebral
extracorporeal membrane oxygenation, infant, 560
fluctuating, phenobarbital and hemorrhage, neonate, 548
Blood pressure
arterial, fluctuations (letter), 811
obesity and, adolescents, weight loss effects, 16
systolic or diastolic, significance (commentary), 112
Bone marrow, transplantation, economic, ethical, and social issues, 774
Brain
hypoxia, hypoxanthine levels in vitreous humor, sudden infant death syndrome, 615
injury, physical examination for (letter), 284
intraparenchymal cysticercosis, 76
lesions, right-sided, following extracorporeal membrane oxygenation, 155
lymphoma
AIDS-associated (letter), 678
primary, AIDS, 355
swelling, asphyxiated newborn, 139
Brain death, anencephalic infants as donors, 250, 257
Brainstem glioma, symptomatic hydrocephalus and, 733
Breast-feeding, practices, middle-class Anglos and Hispanics, 496
Bronchopulmonary dysplasia
hypoxic arousal responses, infant, 59
respiratory syncytial virus and, 199
Bronchoscopy, high-frequency jet ventilation, versus conventional ventilation, 884
Burkitt lymphoma, therapy, acute renal failure and, 863
Burns
palatal, 382
systemic candidiasis, low birth weight infants, 211

Calories, intake restriction, blood pressure in obese adolescents, 16
Candida, pneumonia, AIDS and, 223
Candidiasis, congenital systemic, low birth weight infants, 211
Carbamazepine
malabsorption, 518
nonhereditary chorea, 492
Carbohydrates, malabsorption, fruit juice ingestion, 64
Carbon monoxide, poisoning, automobile exposure, 663
Ceftriaxone, serious bacterial infections, 486
Cerebral cysticercosis, intraparenchymal, 76
Cerebral edema, asphyxiated newborn, 139
Cerebral metabolite, changes, following neonatal intraventricular hemorrhage, nuclear magnetic resonance measurement, 331
Cerebral palsy
antecedents of, *PIR10:177 (abs), 88–89*
feeding gastrostomy, growth and, 857
intrapartum asphyxia and, 240
Cerebrospinal fluid, *Bacillus* isolates from, patients without shunts, 909
Certification, time-limited (commentary), *PIR10:3, 88–89*
Charcoal, activated (letter), 521
Chemotherapy, passive immunization against varicella and (letter), 953
Chest pain, prospective study, 319
Child abuse
intentional ipecac poisoning, Munchausen syndrome by proxy, 453
public disclosure (committee statement), 387
religion and (letter), 673
residency training programs, 477, (commentary) 513
Child care, practices, racial differences, 789
Chloramphenicol, pharmacology, *PIR 10:68 (abs), 88–89*
Cholesterol, levels, childhood and adult, Muscatine study, 309
Chorea, nonhereditary, carbamazepine treatment, 492
Cleft palate, olfactory deficits with, boys, 540
Coagulation, acquired circulating anticoagulants, AIDS with, 763
Cocaine
abuse, mothers (letter), 136
use during pregnancy, 888
Commentaries
Adolescent medicine: Growth of a discipline, 270
Changes in 1988/1989, *PIR10:4, 88–89*
Collaborative research: Once more into the breach, 510
Controversial techniques in allergy, 935
Harvesting organs for transplantation from dying anencephalic infants, 274
Health care delivery to adolescents and young adults by pediatricians, 516
Improving the quality of expert witness testimony, 511
In defense of retaining ipecac syrup as an over-the-counter drug, 514
Management of the child with multiple injuries, *PIR10:35, 88–89*
Mortality rates and health progress, 671
Neonatal extracorporeal membrane oxygenation, 276
Pediatricians Perspective, *PIR10: 163, 88–89, PIR10:163, 88–89, PIR10:99, 88–89*
Prediction of abnormal pulmonary follow-up in premature infants, 670
Residency training in management of child abuse, 513
Sexual behavior, adolescents, *PIR 10: 67, 88–89*
Systolic or diastolic blood pressure significance, 112
Time-limited certification, *PIR10:3, 88–89*
Twenty-fifth anniversary of National Sudden Infant Death Syndrome Foundation, 272
Computed tomography
abdominal trauma, 11
intraparenchymal cerebral cysticercosis, 76
symptomatic hydrocephalus, 733
Computer, diagnosis, neonatal apnea, 713
Conduct disorder, preschool, risk of injury and, 644
Congenital malformations, intrauterine growth retardation and, 83
Corticosteroids, allergic bronchopulmonary aspergillosis, cystic fibrosis with, 835
Cough, foreign body aspiration and, *PIR10:59, 88–89*
Counseling, health, adolescents, 481
Cyclooxygenase metabolites, oxygen tension changes and, 367
Cystic fibrosis, allergic bronchopulmonary aspergillosis and, 835
Cytomegalovirus
adolescent pregnancy and, *PIR10:106 (abs), 88–89*
AIDS and, 223
ascites and, fetus, 100

Day-care center, hospitalization for respiratory infection and, 300
Deafness
recognition, *PIR10:100, 88–89*
unclear speech, preschoolers, 447
Defecation, dynamics (letter), 523
Defibrillation, paddle size importance, transthoracic impedance, 914
Depression
barbiturate anticonvulsants and (letter), 284
parental, *PIR10:159 (abs), 88–89*
Development
disorder, Rett syndrome, 1

Development—*continued*
mental, end-stage liver disease effects, 167
Diagnosis-related groups, prospective pricing model, tertiary care centers, 442
Dialysis, tumor lysis syndrome, 863
Diet, weight loss, blood pressure in obese adolescents, 16
Diethyltoluamide, insect repellant, ammonia metabolism and, 373
Dietl syndrome, intermittent ureteropelvic junction obstruction, 792
Diuresis, postnatal, renal function correlates of, preterm infants, 50
Divorce, adolescents and, *PIR**10:**164 (abs), 88–89*
Drowning, near, *PIR**10:**5, 88–89*
Drugs
see also specific drug or type of drug
abuse, adolescents, *PIR**10:**89, 88–89*
adverse reactions, hospital admission and, 24
emergency dosage guidelines, 119
prescription, dispensing by physicians, 504
Dystonia, treatable, findings of spastic cerebral palsy (letter), 137

Ear, middle, effusion, neonatal intensive care unit graduates, 44
Eating disorders, adolescents, *PIR **10:** 37, 88–89*
Echocardiography, chest pain, prospective study, 319
Electrocardiography, chest pain, prospective study, 319
Electroencephalography, continuous monitoring, intraventricular hemorrhage, preterm infant, 337
Encopresis, behavior problems and, 407
Endocarditis, right-sided, neonatal *Staphylococcus epidermidis*, 234
Endoscopy, peptic ulcer disease, 410
Endotracheal suctioning, shallow versus deep, young rabbits, 746
Enuresis, primary nocturnal, oxybutynin efficacy, 104
Enzyme-linked immunoabsorbent assay, toxoplasmosis, 181
Enzyme multiplied immunoassay test, urine screening, *PIR**10:**140 (abs), 88–89*
Eosinophil, degranulation of, systemic vasculitis associated with, 69
Escherichia coli, high-grade reflux and, primate, 91
Ethics
anencephalic infants as organ donors, 250, 257
bone marrow transplantation, 774
Ethnicity, infant-feeding practices and, 496
Exercise
infants (committee statement), 800
participation, *PIR**10:**131, 88–89*
programs, asthma and, *PIR**10:**191 (abs), 88–89*
weight loss, blood pressure in obese adolescents, 16
Expert witness, improving quality of testimony (commentary), 511

Extracorporeal membrane oxygenation
neonatal (commentary), 276
right-sided brain lesions following, infants, 155
selection criteria, infants, 162

Fetal alcohol syndrome, hearing disorders and, 147
α-Fetoprotein, normal values, neonates and infants (letter), 138
Fetus
ascites and cytomegalovirus infection, 100
harlequin, progress to nonbullous ichthyosiform erythroderma, 870
ventriculomegaly, 682
Fitness, health-related, *PIR**10:**141, 88–89*
Fruit juice, carbohydrate malabsorption and, 64
Fungal infection, systemic candidiasis, low birth weight infants, 211

Gastroesophageal reflux, metoclopramide treatment, methomoglobinemia induced by, 364
Gastrostomy, feeding, cerebral palsy, growth and, 857
Genetics, reading disability and motor problems, 204
Genital tract, papillomavirus infection, female adolescents, 604
Growth
birth weight and, 828
cerebral palsy, feeding gastrostomy, 857
chronic liver disease and, 167
Gynecomastia, fibrolamellar carcinoma of liver, 379

Haemophilus influenzae
ceftriaxone and, 486
type b, immunization, sickle cell disease and, 571
Hair-thread tourniquet syndrome, recognition and treatment, 925
Handicaps, retinopathy of prematurity and, 344
Harlequin fetus, progress to nonbullous ichthyosiform erythroderma, 870
Health care
adolescents
changes in pediatric education, 469
counseling, 481
delivery by pediatricians (commentary), 516
ambulatory, Ontario Child Health Study, 425
preventive, differences by socioeconomic status, 462
quality, *PIR**10:**11, 88–89*
Health maintenance organization
pediatric primary care
psychiatric diagnosis, 435
psychopathology in, 415
Hearing
disorders, fetal alcohol syndrome and, 147
loss, Lævy-Hollister syndrome, 96
Heart, transplantation, *PIR**10:**111, 88–89*

Heart disease
congenital
α-atrial natriuretic peptide in, 639
hypoplastic left-heart syndrome, 698
insurability of pediatric patients, *PIR**10:**107, 88–89*
Hemagglutination, indirect, toxoplasmosis, 181
Hemangioma
spider, laser therapy, 652
strawberry, laser therapy, 652
subglottic, *PIR**10:**31 (abs), 88–89*
Hematuria
factitious, renal abnormalities and, 377
indications for intravenous pyelography, blunt renal trauma, 216
Hemoperitoneum, abdominal trauma, CT evaluation, 11
Hemophilia, human immunodeficiency virus and, 565
Hemorrhage
intraventricular
metabolite changes after, nuclear magnetic resonance measurement, 331
phenobarbital and fluctuating cerebral blood flow, neonate, 548
prevention with indomethacin, premature infants, 533
Homelessness, health needs (committee statement), 938
Hospitalization
adverse drug reactions and, 24
lower respiratory tract illness, day-care center attendance and, 300
Hospitals, safety, 794
Human immunodeficiency virus
hemophilia and, 565
live virus vaccine, 229
perinatal (committee statement), 941
primary lymphoma, central nervous system, 355
thrombocytopenia and, 905
type I, correlation with disease progression, 919
Hunter disease, pink rings lymphocyte (letter), 286
Hydrocephalus, symptomatic, brainstem glioma, 733
Hymen, congenital absence (letter), 679
Hyperactivity, preschool, risk of injury and, 644
Hyperbarism, retinopathy of prematurity and, newborn, 193
Hyperbilirubinemia, plain agar, 631
Hyperoxia, changes in cyclooxygenase metabolites, 367
Hyperthermia, environmental overheating, infants, 738
Hypoplastic left-heart syndrome, genetic disorders and major extracardiac anomalies with, 698
Hypoxanthine, levels in vitreous humor, prolonged cerebral hypoxia in sudden infant death syndrome, 615
Hypoxia
arousal responses, bronchopulmonary dysplasia and, infant, 59
cerebral, hypoxanthine levels in vitreous humor, sudden infant death syndrome, 615

intrapartum asphyxia, cerebral palsy and, 240

Immunization
live virus vaccine, HIV, 229
primary, acellular vaccine for pertussis, 293
Indomethacin, prophylactic, intraventricular hemorrhage and, premature infant, 533
Infant
see also Neonate; Newborn
exercise programs (committee statement), 800
feeding patterns, ethnicity, 496
α-fetoprotein normal values (letter, 138
low birth weight
otitis media in neonatal intensive care unit graduates, 44
socioeconomic status versus race, 896
systemic candidiasis in, 211
TrophAmine and (letter), 388
preterm
abnormal pulmonary outcomes, 527
amino acids in (letter), 680
arterial blood pressure fluctuations (letter), 811
intraventricular hemorrhage, prevention with indomethacin, 533
intraventricular hemorrhage, continuous EEG monitoring, 337
postnatal diuresis, renal function correlates of, 50
see also Prematurity
stimulation of, *PIR10:149, 88–89*
subglottic hemangioma, *PIR10:31 (abs), 88–89*
urinary tract abnormalities, ultrasound screening, 609
very low birth weight
bilirubin, intraventricular hemorrhage, and phenobarbital relations, 350
retinopathy of prematurity, 344
role of illness in family status, 596
variability in 28-day outcome, 554
Infection
see also specific type
Bacillus isolates from cerebrospinal fluid, patients without shunts, 909
congenital, ascites and cytomegalovirus, outcome for fetus, 100
nosocomial, respiratory failure and AIDS, 223
opportunistic, AIDS and, 905
postoperative, necrotizing fasciitis in, 874
prolonged high-grade reflux and, primate, 91
Injury
see also Trauma
brain, physical examination for (letter), 284
multiple, management, (commentary) *PIR10:35, 88–89, PIR10:49, 88–89*
persistence of occurrence of accidents, predictions, 707
prevention, *PIR10:171, 88–89*
risk, preschool behavior problems and, 644
school, *PIR10:177 (abs), 88–89*
stairway, 457
Insect repellant, diethyltoluamide, ammonia metabolism and, 373
Insurance
cardiac disease patients, *PIR10:107, 88–89*
pharmaceutical, prescription drug dispensing by physicians, 504
Intelligence, very low birth weight infants, family status at 8 and 11 years of age, 596
Intensive care unit
neonatal
back transport to Level I and II units, 845
variability in 28-day outcome in very low birth weight infants, 554
Internship, pediatric, 752
Intracranial lesion, cysticercosis, 76
Intrauterine growth retardation
birth weight, growth relations, 828
congenital malformations and, 83
Intraventricular hemorrhage
bilirubin concentrations and phenobarbital relations, very low birth weight infants, 350
preterm infant, continuous EEG monitoring, 337
Ipecac
chronic poisoning, 384
poisoning, Munchausen syndrome by proxy, 453
retention as over-the-counter drug (commentary), 514
Iron
deficiency
anemia evaluation, *PIR10:77, 88–89*
lead poisoning and (letter), 394

Jaundice, neonatal, plain agar, 631

Karyotype, 47,XXX, prognosis, 619
Kawasaki disease, intravenous γ-globulin use in (committee statement), 122
Kidney
abnormalities, factitious hematuria and, 377
anomaly
healthy infant, ultrasound screening, 609
Levy-Hollister syndrome, 96
blunt trauma, indications for intravenous pyelography, 216
calcification (letter), 287
failure, tumor lysis and, 863
function, neonatal, postnatal diuresis and, 50
malformations, Turner syndrome and, imaging, 852
transient dysfunction, neonate, 929
Kinsey study, sexual abuse, changes during 20th Century, 766
Klinefelter syndrome, fire-setting behavior, 115

Language, unclear speech, preschoolers, 447
Laser therapy, cutaneous vascular lesions, 652
Lead
poisoning
anemia and, *PIR10:77, 88–89*
prevention (letter), 524
poisoning (letter), 394
Learning disability, very low birth weight infants, family status at 8 and 11 years of age, 596
Leukemia, B cell acute lymphoblastic, therapy, acute renal failure and, 863
Levothyroxine, overdose, 666
Levy-Hollister syndrome, clinical manifestations, 96
Liver
carcinoma, fibrolamellar, gynecomastia as a sign of, 379
end-stage disease, mental development and growth in, 167
transplantation, changes in life-style after, 173
Live-style, changes, after liver transplantation, 173
Lung
abnormal outcome, premature infants, 527, (commentary) 670
chronic illness, very low birth weight infants, 554
unilateral disease, positional therapy, *PIR10:36 (abs), 88–89*
Lyme disease, acute focal meningoencephalitis, 931
Lymphoma, central nervous system, acquired immunodeficiency syndrome, 355

Macrocrania, hydrocephalus, *PIR10:63 (abs), 88–89*
Magnetic resonance imaging, symptomatic hydrocephalus, 733
Marijuana, use during pregnancy, 888
Mastoiditis, acute, *PIR10:127 (abs), 88–89*
Medical education, pediatric, health care delivery to adolescents, 469
Medical technology, bone marrow transplantation, 774
MEDLINE, database (letter), 809
Meningitis
Bacillus isolates from cerebrospinal fluid, patients without shunts, 909
Vibrio vulnificus, thalassemia with, 784
Meningoencephalitis, acute focal, Lyme disease and, 931
Meta-analysis, plain agar, neonatal jaundice and, 631
Methomoglobinemia, metoclopramide-induced, 364
Methylene blue, methomoglobinemia, 364
Metoclopramide, methomoglobinemia induced by, 364
Mixed connective tissue disease, scleroderma and, esophageal motor abnormalities, 107
Molybdenum cofactor, deficiency (letter), 521
Mortality
infant
decline in 20th century, 582, (commentary) 671
vital statistics, annual summary—1987, 817

Motor deficit, reading disability and, familial patterns, 204
Mucopolysaccharidosis type II, *see* Hunter disease
Munchausen syndrome by proxy
factitious hematuria, 377
intentional ipecac poisoning, 453

Natriuresis, renal function correlates, preterm infants, 50
Neck breathing, spine-injured ventilator-dependent quadriplegics, 741
Necrotizing fasciitis, postoperative, 874
Neonatal intensive care unit, former patients, otitis media in, 44
Neonate
see also Infant; Newborn
α-fetoprotein normal values (letter, 138
fluctuating cerebral blood flow velocity, hemorrhage and phenobarbital, 548
intraventricular hemorrhage, metabolite changes after, NMR measurement, 331
respiratory distress syndrome, surfactant replacement, 543, 683, 756
right-sided endocarditis, *Staphylococcus epidermidis*, 234
transient renal dysfunction, 929
Neonatologist, tertiary care center, prospective pricing model for, 442
Neuroblastoma, adrenocortical defects and, 790
Newborn
see also Infant; Neonate
apnea, diagnosis, nurse versus computer, 713
asphyxiated, brain swelling in, 139
extracorporeal membrane oxygenation, right-sided brain lesions, 155
suctioning, AIDS and (letter), 520
Nonbullous ichthyosiform erythroderma, progress to harlequin fetus, 870
Nonsteroidal anti-inflammatory drugs, rheumatic disease and, *PIR **10:** 183, 88–89*
Nose, foreign body in (letter), 395
Nuclear magnetic resonance, cerebral metabolite changes, following neonatal intraventricular hemorrhage, 331
Nutrition, infant, ethnicity and, 496

Obesity
birth weight, growth relations, 828
cholesterol level and, Muscatine study, 309
Obstetrician, tertiary care center, prospective pricing model for, 442
Odontoid, fracture, child restraint seat and, 117
Olfactory deficit, cleft palate and, boys, 840
Oral contraceptives, cholesterol level and, Muscatine study, 309
Organ transplantation, economic, ethical, and social issues, 774
Otitis media, neonatal intensive care unit graduates, 44
Oxybutynin, primary nocturnal enuresis and, 104
Oxygen
requirement, neonatal period, prediction for preterm infants, 527
supplementation effects, retinopathy of prematurity and, newborn, 193
Oxygenation, extracorporeal membrane support, ocular findings in infants, 560
Oxygen gradient, alveolar-arterial, extracorporeal membrane oxygenation selection criteria, 162

Palate, burn, 382
Papillomavirus, genital tract, female adolescents, 604
Patent ductus arteriosus, prevention with indomethacin, premature infants, 533
Pediatricians
adoption and, *PIR**10:**155, 88–89*
general, high-risk deliveries and, *PIR**10:**119, 88–89*
health care to adolescents and young adults (commentary), 516
perspective *PIR**10:**99, 163, 88–89*
Pediatrics
advances, *PIR**10:**106, 88–89*
changes in education, health care delivery to adolescents, 469
high-risk patients, *PIR**10:**101, 88–89*
internship, 752
practice, research, 399
primary care
psychopathology in, 415
service utilization and psychiatric diagnosis, 435
residencies, 752
D-Penicillamine, retinopathy of prematurity and (letter), 951
Peptic ulcer, etiology, 410
Pertussis, acellular vaccine, primary immunization of infants, 293
Pharmacokinetics, intravenous theophylline dosage, prediction, 880
Pharyngitis, antimicrobial therapy, streptococcal antigen detection kit, 576
Phenobarbital
bilirubin concentration and intraventricular hemorrhage relations, very low birth weight infants, 350
hemorrhage, fluctuating cerebral blood flow and, neonate, 548
Physical activity, adult levels, childhood fitness tests as predictors of, 324
Physical education, preventive medicine, *PIR**10:**141, 88–89*
Physical fitness, childhood tests, adult physical activity levels and, 324
Physician reimbursement (letter), 282
Pneumocystis carinii, pneumonia, AIDS and, 223
Pneumogram, hypoxic arousal response, bronchopulmonary dysplasia, infant, 59
Poison
acetaminophen, dosage of acetylcysteine in (letter), 674
carbon monoxide, automobile exposure, 663
diethyltoluamide, ammonia metabolism and, 373
ipecac, chronic, 384
Polysaccharide antigen, *Haemophilus influenzae* type b immunization, sickle cell disease and, 571
Polysomnography, subsequent sudden infant death syndrome infants, 721
Portwine stain, laser therapy, 652
Poverty, preventive health care and, 462
Povidone-iodine, cord care (letter), 951
Pregnancy
adolescent
cytomegalovirus and, *PIR**10:**106 (abs), 88–89*
sexual activity and, *PIR**10:**69, 88–89*
cocaine use during, 888
high-risk delivery, general pediatrician's role in, *PIR**10:**119, 88–89*
maternal use of valproic acid, congenital malformations and, *PIR **10:** 48 (abs), 88–89*
Prematurity
see also Infant, preterm
birth weight, growth relations, 828
stimulation of infant, *PIR**10:**149, 88–89*
Prenatal care, cocaine use during pregnancy, 888
Preoperative preparation, psychologic, acute appendectomy, 30
Preschool children
behavior problems, risk of injury and, 644
persistence of occurrence of injury, predictions, 707
unclear speech in, 447
Pressure, intracranial, asphyxiated term newborn, 139
Prostacyclin, retinal, oxygen tension changes and, 367
Psychiatry, diagnosis, service utilization and, pediatric primary care, 435
Psychopathology, pediatric primary care, 415
Pulmonary care, neonatal, endotracheal suctioning, 746
Pulmonary stenosis, percutaneous balloon valvuloplasty for, *PIR **10:** 179, 88–89*
Pyelography, intravenous, indications for, blunt renal trauma, 216

Quadriplegia, spine-injured and ventilator-dependent child, neck breathing, 741

Racial differences
Black child care practices, 789
socioeconomic status versus, low birth weight, 896
Rash, systemic candidiasis, low birth weight infants, 211
Raynaud phenomenon, esophageal motor abnormalities and, 107
Reading disability, motor problems with, familial patterns, 204
Reflex sympathetic dystrophy, transcutaneous electric nerve stimulation, 728
Religion, child abuse and (letter), 673
Research
collaborative (commentary), 510
practice-based, 399

Residency
pediatric, 752
stress in, 260
training
child abuse management (commentary), 513
child abuse programs, 477
Respiratory chemoreceptor dysfunction, environmental overheating and, infant, 738
Respiratory disease, endotracheal suctioning, shallow versus deep, 746
Respiratory distress syndrome, neonatal, surfactant replacement, 543, 683, 756
Respiratory failure
AIDS and AIDS-related complex, 223
right-sided brain lesions and, infant, 155
Respiratory infection, hospitalization, day-care center attendance and, 300
Respiratory syncytial virus, bronchopulmonary dysplasia and, 199
Retina
detachment, classification, 37
extracorporeal membrane oxygenator support, infants, 560
Retinopathy of prematurity
changing patterns, 344
international classification, 37
oxygen-induced, newborn, 193
D-penicillamine and (letter), 951
Rett syndrome
characterization, *PIR10:95 (abs), 88–89*
natural history and management, 1
Reye syndrome
aspirin and (letter), 135, 676
salicylate relations (letter), 390, 391
Rheumatic disease, evaluation of musculoskeletal symptoms, *PIR 10: 183, 88–89*
Ribavirin, use questioned (letter), 283

Safety seat
odontoid fracture and, 117
recent advances, *PIR10:171, 88–89*
School, AIDS education in (committee statement), 278
School-aged children, persistence of occurrence of injury, predictions, 707
Scleroderma, mixed connective tissue disease and, esophageal motor abnormalities, 107
Seat belt
legislation, *PIR10:126, 88–89*
school bus (letter), 134
see Safety seat
Seizure
disorder, near drowning and, *PIR 10: 5, 88–89*
intraparenchymal cerebral cysticercosis, 76
Serum alkaline phosphatase, concentration, *PIR10:182 (abs), 88–89*
Sex chromosome, anomaly, 47,XXX, prognosis, 619
Sex-influenced trait, cleft palate, olfactory deficits with, boys, 840
Sexual abuse, changes in epidemiology, 766
Sexual activity
adolescents, pediatrician and, *PIR10:69, 88–89*
adolescents (commentary), *PIR10:67, 88–89*
Sexually transmitted diseases, adolescent sexual activity and, *PIR10:69, 88–89*
Shunting, in utero, ventriculomegaly, 682
Sickle cell disease
Haemophilus influenzae type b immunization and, 571
scintigraphic differentiation, *PIR 10: 58 (abs), 88–89*
Skin, systemic candidiasis, low birth weight infants, 211
Sleep
polysomnographic study, subsequent sudden infant death syndrome, 721
problems, *PIR10:17, 88–89*
Smoking, cholesterol level and, Muscatine study, 309
Snowmobiles, statement (committee statement), 798
Socioeconomic status
differences, preventive health care and, 462
race versus, low birth weight, 896
Speech, unclear, preschoolers, 447
Spine, injury, neck breathing in ventilator-dependent quadriplegics, 741
Staphylococcus aureus, ceftriaxone and, 486
Staphylococcus epidermidis, right-sided endocarditis, neonate, 234
Statistics, caution (letter), 954
Steady-state, intravenous theophylline dosage, prediction, 880
Streptococcus pyogenes
antigen detection kit, antimicrobial therapy for pharyngitis, 576
ceftriaxone and, 486
Stress, acute appendectomy, preoperative psychologic preparation, 30
Suction catheter, endotracheal, effects on tracheobronchial wall, 746
Sudden infant death syndrome
environmental overheating, transient respiratory chemoreceptor dysfunction, 738
national foundation (commentary), 272
polysomnographic studies of infants, 721
prolonged cerebral hypoxia, hypoxanthine levels in vitreous humor, 615
Surfactant, replacement, neonatal respiratory distress syndrome, 543, 683, 756
Surgery, preoperative psychologic preparation, acute appendectomy, 30

Tertiary care, prospective pricing model, 442
Thalassemia
anemia and, *PIR10:77, 88–89*
Vibrio vulnificus meningitis with, 784
Theophylline
intravenous dosage, prediction, 880
neonatal apnea, 713
Thrombocytopenia, HIV and, 905
Thyrotoxicosis, neonatal, *PIR10:57 (abs), 88–89*
Toxicity, massive levothyroxine overdose, 666
Toxic shock syndrome, staph and, *PIR10:118 (abs), 88–89*
Toxoplasmosis, maternal and pediatric, 151
Tracheobronchitis, necrotizing, high-frequency versus conventional ventilation, 884
Transcutaneous electric nerve stimulation, reflex sympathetic dystrophy, 728
Transplantation
anencephalic infants as donors, 250, 257
cardiac, *PIR10:111, 88–89*
liver
changes in life-style after, 173
mental development and growth in liver disease patients, 167
organs from anencephalic infants (commentary), 274
Transthoracic impedance, determination, paddle size and, defibrillation, 914
Trauma
abdominal, CT evaluation, 11
renal, intravenous pyelography, 216
see also Injury
TrophAmine, low birth weight infants (letter), 388
Tumor lysis, acute renal failure and, 863
Turner syndrome, renal malformations with, imaging, 852

Ultrasound
fetal ventriculomegaly, 682
Turner syndrome, renal malformations with, 852
urinary tract abnormalities, healthy infants, 609
Umbilical cord, care with povidone-iodine (letter), 951
Ureter, vesicoureteral reflux, primate, 91
Uric acid, tumor lysis syndrome, acute renal failure and, 863
Urine, screening for drugs, *PIR10:140 (abs), 88–89, PIR10:89, 88–89*

Vaccine
acellular, primary immunization of infants, 293
Haemophilus influenzae type b, sickle cell disease and, 571
live virus, HIV, 229
National Childhood Vaccine Injury Compensation Act, 264
Valproic acid, maternal use during pregnancy, congenital malformations and, *PIR10:48 (abs), 88–89*
Valvuloplasty, percutaneous balloon, congenital pulmonary stenosis, *PIR10:179, 88–89*
Varicella
exposure time (letter), 810
passive immunization against, cancer chemotherapy and (letter), 953
Vascular lesions, cutaneous, laser therapy, 652
Vasculitis, systemic, eosinophilia and, 69
VATER association, *PIR10:153 (abs), 88–89*

Ventilation
assisted, high-frequency versus conventional, bronchoscopic findings, 884
endotracheal suctioning, effects on tracheobronchial wall, 746
neck breathing in spine-injured child, 741
mechanical
intraventricular hemorrhage, continuous EEG monitoring, 337
Ventriculomegaly, fetal, 692
Vesicoureteral reflux, high-grade, infection and, primate, 91
Vital statistics, annual summary—1986, 817
Vitreous humor, hypoxanthine levels in, prolonged cerebral hypoxia in sudden infant death syndrome, 615

Weight, loss, blood pressure in obese adolescents, 16
Wheezing, foreign body aspiration and, *PIR10:59, 88–89*

47,XXX, prognosis, 619
